

THE DOWN TO EARTH MINISTRIES

“Planting the Seeds of Faith”

What people are saying...

“We have had the pleasure to experience Joanne’s vibrant and “down to earth” style of teaching. She is a gifted communicator and has the inspiring ability to relate the things of nature with biblical application in a fun and interesting manner. It is well researched and will undoubtedly be a Christian literature best seller because it is extremely practical and wonderfully spiritually. However, her book is also highly motivational and should easily succeed everywhere.”

Rick Faison, President
The Philadelphia Society of Creation Science

“Real application for my life with Biblical/Scriptural support. The pictures were an excellent tool to illustrate your point.”

Kendra Alexandra
Great Commission Bible Church, OH

“Connection between scripture and nature - So basic, re-assuring, so comforting to someone in the valley.”

Kit Tokash
Trinity Presbyterian Church, PA

“Thanks to your book, I have seen that the Almighty God plants and transplants us as needed in our life.”

Warren Evans
Federal Correction Institute, Fort Dix, NJ

A Down to Earth Motivational Lesson for You:

**You must travel down
into the valley, before
you can climb up to
higher heights.**

Searching for God? Step Outside!

There are lessons in nature that we don’t realize that can teach us to live, to grow, and be wise. A Down to Earth Bible Study provides 60 lessons from nature that teach people how to grow, thrive, and bloom by using nature, and the bible, as the instructor. God’s has given us visible and tangible illustrations in nature whereby He surrounds us with His wisdom for successful living, as well as, messages of hope, help, and inspiration. God’s lessons on living are outdoors everywhere! (Psalms 19:1-4 and Romans 1:19-20)

Have you ever walked down a city sidewalk and observed a green plant growing in the middle of the concrete or in a brick wall. Have you seen a flower blooming in rocks? It signifies that, we too, can survive and even grow in the most difficult of circumstances.

A Down to Earth Bible Study by Joanne Taylor

One Bible Study Per Week - 2 hours

Meet the Author

After a decade of climbing up the Corporate Ladder, Joanne Taylor resigned from the IBM Corporation, climbed back down to earth, hung up her blue suit, put on her blue jeans, and started her successful gardening business, Taylor Gardens. While she was planting and sowing seeds on the outside, in the garden, God was planting His Word on the inside, in her spiritual life. Joanne became a student of biblical counseling with Christian Research and Development, Inc. located in Philadelphia, Pennsylvania where she began to grow, thrive, and bloom. Ms. Taylor has since developed a biblical course entitled *The Roles of Men and Women*, which teaches on the subject of marriage, singleness, parenting, and the Christian home. That course led her to write another course entitled *Renewing the Mind*, which deals with sin issues such as anger, worry, guilt, various bad habits, and depression. She has taught these courses, as well as, her *Down to Earth Presentations* across the country.

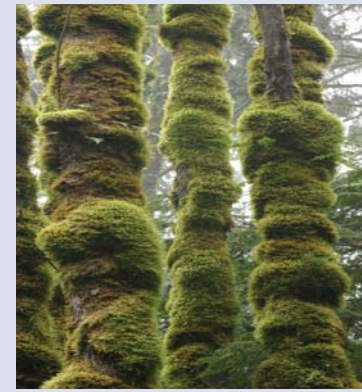

Ms. Taylor is a free-lance writer and columnist. She has written for a number of newspapers and magazines such as Black Diaspora, The Black Suburban Journal and The Free Press. She is currently a columnist for WOW e-Magazine and The Connection Newspaper. Her Down to Earth teaching has been featured in newspapers such as The Philadelphia Inquirer, The Philadelphia Tribune, Main Line Times, as well as, a host of other newspapers. She has also been featured on radio stations such as WVCH, WFIL, WDAS, Power 99 FM, Gospel Highway Eleven, and other radio programs. You may have seen Joanne and *Down to Earth* featured on television's Fox 29's *Good Day Philadelphia* morning show, *Highlighting Christianity* Television Program or *The Stefany J. Show*. Joanne also taught at the 2006 Philadelphia Flower Show.

Down to Earth Presentations

A Down to Earth Presentation, Bible Study, or Conference will not only provide motivational lessons from nature, but I will also present a breathtaking PowerPoint Presentation that will illustrate these lessons, and God's creation, in a way that most people have never seen before. We dive deep into the ocean and explore an amazing under-water world that covers $\frac{3}{4}$ of the Earth. We walk on the cool black sand beaches of Hawaii and the blazing hot orange sands of the desert. I show you exotic and peculiar plant life that lives and hides in the jungle. We explore mystifying gemstone mines and cool-blue ice caves. We also examine the different types of storms in life; and we keep our heads to the sky as we travel to the never-ending boundaries of the universe.

As guest speaker, I bring humor, ethnic diversity, years of gardening experience, mind-blowing facts about nature, along with an out of this world PowerPoint Presentation that displays nature in a way most people have never seen before. Allow me to show you the incredible glory of God through His creation while teaching you the motivational lessons that nature reveals. Please contact me, and choose a Down to Earth Interview, Workshop, Bible Study, a 1, 2 or 3-Day Conference, or a week-long Down to Earth Revival.

Hot Topics

- How to search for rainbows
- Hurricane and Earthquake Survival
- Recognizing the sky is **not** the limit
